# Creating a WordPress Website

Is WordPress for You?

# What is WordPress?

- At its core, **WordPress is the simplest, most popular way to create your own website or blog.**
- In fact, WordPress powers over 38.8% of all the websites on the Internet. Yes – more than one in four websites that you visit are likely powered by WordPress.

# What Kinds Of Websites Can WordPress Make?

- Business websites
- eCommerce stores
- Blogs
- Portfolios
- Resumes
- Forums
- Social networks
- Membership sites
- ...pretty much anything else you can dream up.

## What's The Difference Between WordPress.org and WordPress.com?

- **WordPress.org**, often called **self-hosted WordPress**, is the free, open-source WordPress software that you can install on your own web host to create a website that's 100% your own.
- **WordPress.com** is a for-profit, paid service that is *powered* by the WordPress.org software. It's simple to use, but you lose much of the flexibility of the self-hosted WordPress.
